# GREAT POLITICAL CAMPAIGN CLOSES.

Enthusiastic Final Demonstrations in Many of the Close or Doubtful States.

BOTH SIDES VERY CONFIDENT.

Association

At most of the Tammany Hall clubs in the city, final rallies were also held by the Democrats, but these meetings were arranged for members of the organization only, and so far as the general public is concerned, interest centered in the spectac-ular events furnished by the Republicans. The cold rain and the damp streets interfered with the presence of crowds as large as had been expected at the Republican parade, and to some extent probably disarranged the plans for local parades and dis-trict mass meetings scheduled in the vari-ous Tammany Hall districts in the borough of Manhattan.

of Manhattan.

'Generally speaking, however, the Demo-cratic campaign here may be said to have heen brought to a close last Monday night when William J. Bryan, after having male thirty speeches up the State during the day, addressed a large mass meeting, held under the auspices of the Hebrew Demo-cratic organizations on the east side of the city afterwards speaking to seven mass

cratic organizations on the east side of the city, afterwards speaking to seven mass meetings in Brocklyn and leaving for the West on the midnight train.

Since that time, there have been the usual pre-election gatherings, at which Demogratic speakers of Stare and national prominence have addressed representative audiences, but public interest has centered more upon Mr. Bryan's movements in the West than upon any Democratic gathering held in this State since Mr. Bryan closed his campaign here.

However, he has agreed to address his friends and neighbors at his home at Oyster Bay, L. L. on Monday night, and Republicans are expecting that this will develop into one of the most interesting rallies of the campaign.

Leaders on both sides are greatly interested in the possibilities in what is termed the silent vote, as well as the political alignment of first voters and new voters. Estimates concerning the possible political action of the silent or secret voters are valueless.

So far as first voters and naturalized voters are concerned, it may be said that the increase in registration in this city this year has been remarkable. The total registration for the live boroughs of Greater New York this year amounts to 640,003, as compared with the registration of four years ago.

The Republicans have been betting everything on carrying Ohio by a larger plurality than four years ago, when McKlnley had 51,109, but to-day they were betting on 46,009. Odds as high as 10 to 1 have been given on McKinley carrying Ohio.

Most of the canvassers anticipate Republican gains in cities, and most of the speculation is on the probability of the change in the cities exceeding those in the rural districts or vice versa.

### KANSAS.

MICHIGAN.

Detroit, Mich., Nov. L.—Except for a few political meetings on Monday night, the compation in Michigan closed to-day. The State Committee of both parties professes to be confident of success.

Colonel A. T. Billes of Saginaw, the Republican candidate for Governor, and Mayor W. C. Tarbury of Detroit, the Democratic cradidate, have made a thorough canvass of the State, perhaps the most thorough that has ever been made.

The Republicans claim not only all the electoral votes, but the entire Republican State ticket, all the Republican Congressmen and a Republican majority of the State Legislature.

Chairman Campau of the Democratic Committee issued a statement to-night, in which be asset the North March March 1985.

cratic gains in citles, and most of the speculation is on the probability of the change in the citles exceeding those in the rural districts or vice versa.

WEST VIRGINIA.

Wheeling, W. Va., Nov. 2.—The closing of the last week of the campaign in West Virginia finds the two great parties lined up for the greatest political battle in thistory of the State.

There is a new element introduced in the placing of the Debs Social-Democracy electors on the ticket and the strength of the new party is difficult to determine, but that Debs will draw the larger part of his support from Democrats is believed to be a fact.

Chairman Dawson claims the State for the Republicans by 12,000 to 18,000. Chairman Miller says it will be reclaimed for the Democracy, but he gives no figures.

The People's party and Prohibition tickets will not cut much of a figure in the result. The Sound-Money Democrats of four years ago are divided, some becoming Republicans and the others returning to their old allegiance.

The Renublicans have waged the most agressive campaign. An unprecedented mush her of meetings have been held, and the State has heard as many or more of the party's great spellbinders as any other State in the Union.

KENTUCKY.

Democrats boast of having more than an even chance in the Second District, which was for a long time a Democratic stronghold; also a good lighting chance in the Foirrh and Fifth districts.

The Republicans have made a much more aggressive campaign in the State than the flemocrats. While Louis G. Hohmrich, the Democratic gubernatorial nomines has made a good canvess, it cannot be compared with that of Mr. La Follette, who has been canvassing the State on a special train for several weeks.

DELAWARE.

Wilmington, Del., Nov. 3.—The closing week of the presidential campaign in Delaware finds both the chairmen of the Democratic and of the Republican parties claiming victory for their respective sides.

The Republican factions, known as the Addicks and Dupont whiles of the parts, which, at the last presidential election, were united in their support of the national ticket, are again a unit in their support of the Republican electors, and, in addition, have on their respective tickets the same candidates for the unexpired term of the late Congressman Hoffeker, and also for the regular term. They are also united on the same State candidates, but in two of the three counties of the State. Kent and Sussex, they are opposed to each other for the Legislature.

This fact, the opinion is expressed, gives to the general result a most doubtful aspect, with the odds, if any slightly in favor of the Republicans on the McKinley electors, and more strongly in favor of the Democrats for the control of the Legislature, which will elect two United States Senators.

The Democrats present a united front on all national. State and legislative candidates, and it may be said at this time that the official count alone can determine the result beyond doubt.

WASHINGTON

MONTANA.

Helena, Mont. Nov. 3.—There is no reason to doubt that Montana will give her electroal vote for Bryan by a majority ranging from 10,000 to 18,000. It may be higher. The State and legislative situation is more mixed, but conservative observers concede the election of Joseph K. Toole as Governor, with the chainess decidedly in favor of the entire Democratic ticket.

The legislative situation is more uncertain than any other part of the ticket. The Republican membership in the Legislature was less than one-fifth of the entire membership. This year there will be some Republican pains in all probability, and the independent Democratic will be successful in one or two large counties, perhaps giving the independents the balance of power in the Legislature. The friends of Senator Clark, however, stoatly claim that the straight Democratis will have a clear majority in the Legislature. There is one thing that seems absolutely

The Legislature is claimed by both committees, with a majority of ten to twenty on joint ballot. Two United States Senators are to be elected, one to fill the vacancy made by the death of Senator M. L. Hayward, before taking his seat, and another to succeed Thurston, whose term \*x pires March 4. The real light has been in the Legislature, with both sides claiming a victor.

### SOUTH DAKOTA.

Sloux Falls, S. D., Nov. 2.—The campaign in South Dakota practically closed tonight, with meetings in hundreds of precincis.

In addition to Presidential Electors, full congressional, legislative and State tickets are to be elected. The Legislature to be chosen will elect a successor to Senator Pertigrew. Interest centers in the fight for the Legislature, with both fusionists and Republicans claiming it.

Thomas H. Ayres, secretary of the Fasion State Committee, speaking for the committee, chaims that fusionists will cleat Bryan Electors and their full congressional and State tickets by a majority of 2006.

Frank Crane, chairman of the Republicans State Committee, will furnish no figures on the probable result. Leading Republicans, however, say the State is certain for Me.

Kinley: that the entire Republican State ticket will be elected, and that the Legislature will have a good Republican majority, insuring the defeat of Senator Petigrew and the election of a Republican to succeed him.

## COLORADO.

CULURADU.

Denver, Colo., Nov. 2.—The eampaign closed in Colorado to-night with meetings in nearly all the cities and towns of the State, the most important of which were held in this city.

This campaign has been more vigorously contested than any in the State since 1892, and both sides are claiming victory to-night, although betting is heavy in favor of the fusion ticket. Four to one is offered that Bryan's plarality in the State will be 25,000. The women have taken an unwonted interest in the campaign and a very heavy vote is looked for.

certain about the Legislature, and that is that the Republican plurality of 12,000 in that the Republicans will not control it on June will be reduced materially.

NEBRASKA.

NEBRASKA.

Omaha, Neb., Nov. 2.—One of the most systematically fought comparing in the State than the bemorate gubernatorial nomines has made a good canvass, it cannot be compared with the total of Mr. Le Folicite, who has been canvasting the State on a special train for several weeks.

The Prohibitionists have made little or no canvass in the State, The Social Democratics and Social Labor parties have candidates to be wited for, the names being placed on the ballot under the head of individual nominations.

Board of Engineers' Recommendations on Government Works.

Galveston, Tex., Nov. 3.—It is learned from an unofficial source that the Board of Army Engineers, which recently sat here, will recommend the rehabilitation of all the Galveston fortifications and the repairing and raising of the jettles.

The jettles cost about \$7,000,000, and the fortifications \$1.500,000.

The total damage to all by the storm was about \$1.700,000. The work which the engineers will recommend will cost about \$3,500,000.
